

Add-on Testing

Due to high volume of testing, the laboratory has exceeded the capacity to store blood samples for 7 days.

Effective 7/23/21, blood samples will only be held for five days. Add on tests must be requested no later than 5 days after sample collection.

If you have questions, please contact, Jennifer Viergutz, MBA, MA, MT (ASCP), Laboratory Administrative Director (218)249-5724, or Dr. Kristin Baer, Medical Director Chemistry and Immunology, (218) 249-5751
